

CREATION SCIENCE Prayer Requests for January 2018

Monday, January 1 - As this new year begins, pray that all true born again Christians would utilize their God given opportunities to proclaim the only way of salvation through our Creator, Lord, and Saviour, Jesus of Nazareth.

Tuesday, January 2 - Pray that the Creation film night in Morden MB later this month will have a good turnout and that those who attend will learn more about our Creator and Redeemer. (Creation Resources Manitoba - CRM)

Wednesday, January 3 - Pray for the Creation Science Association of Alberta (CSAA) workers who are mailing the next issue of Dialogue (the third of 2017). This issue includes a report on some Creation Weekend 2017 lectures and other articles.

Thursday, January 4 - Pray that the Lord's Will would be accomplished as Creation organizations, large and small, organize and conduct Creation Ministry events this year.

Friday, January 5 - Pray that the many traumatic incidents and instability in today's world will drive Christians to become serious about raising their children with solid Bible knowledge (which is becoming more and more rare these days).

Saturday, January 6 - Pray for young people as they go to University, that their faith in the Creator and His Creation will remain strong.

Sunday, January 7 - Pray that as pastors plan their sermons and church programs for the new year that they will include the important foundational issue of Special Creation.

Monday, January 8 - Pray that all who come in contact with **Keith Miller**, (President of Creation Science of Saskatchewan Inc. - CSSI) would see in his life, Biblical truth and the only true way of Salvation, through faith in Jesus Christ.

Tuesday, January 9 - Pray for Christian doctors who have to deal with protocols made by evolutionists (with a non-biblical vision of the human body). May they stand on God's Word and make a difference for Christ. (Creation Science Association of Québec - CSAQ)

Wednesday, January 10 - Pray that as CSSI leaders work on plans for their 2018 and 2019 Creation Family Camps (including speakers), they will know and follow God's perfect will.

Thursday, January 11 - Pray for the North American theatrical release of "Alien Intrusion: Unmasking the Deception" movie today - that it would impact many people for Christ.

Friday, January 12 - Ask the Lord to guide the Creation Science Association of British Columbia (CSABC) directors as they meet tonight. Pray that God's will is done as meetings are planned for the year ahead.

Saturday, January 13 - Answers in Genesis-Canada (AiG-C) is officially launching this year. In preparation for that, **Calvin Smith** held many vision casting meetings throughout Canada during the last part of last year explaining the strategy, goals and needs of the ministry to supporters. Pray that potential supporters will have a clear grasp of the vision of AiG-C and how they can be a part of it.

Sunday, January 14 - Pray that Christians will be very careful of which 'Christian' colleges and seminaries they (or their children) attend since very few today seem to be teaching the whole Bible and not emergent theology.

Monday, January 15 - The Creation Celebration offers a list on <www.creation-science.sk.ca> of Creation passages to serve as a framework and guide to Biblical foundations on origins. Download the list for repeated family exposure and discussion, whether you can attend the yearly Celebration in North Battleford or not.

Tuesday, January 16 - The Board at Citizens for Origins Research and Education (CORE) would ask for prayers for strategic alliances to form in Canada. They are looking to join with other existing creation ministries to seek a major breakthrough and financial advance. Darwinism in the scientific sense is on its knees looking for more convincing evidence. There is a window to kill it. We need to join together.

Wednesday, January 17 - Ask God to direct and bless the involvement of **Dennis Kraushaar** with CSSI.

Thursday, January 18 - Uphold in prayer the needs of **Vance Nelson** and his Creation Truth Ministries (CTM) outreach.

Friday, January 19 - Pray for those who oppose the creation message that they too will accept the Lord Jesus Christ into their hearts and lives. (CRM)

Saturday, January 20 - Continue to uphold **Roger** and **Myrna Oakland** in their ministry through Understand the Times (UTT).

Sunday, January 21 - Pray for **Kent Goodnough** as he holds his monthly creation outreach meeting at 6:00 P.M. in the Cosmo Center, Saskatoon, SK today. Pray that many believers and non-believers will hear about the meeting and decide to attend.

Monday, January 22 - Expanding Youth Ministries (EYM) is supplying good creation resources to school and church libraries. Pray for God's leading and blessing in this endeavor.

Tuesday, January 23 - Pray for spiritual protection and direction on all those involved at the Institute for Creation Research (ICR) in Texas.

Wednesday, January 24 - Thank God for the ongoing ministry of **Dr. Gary** and **Mary Parker** in Florida. May their efforts encourage many needy hearts.

Thursday, January 25 - Ask God to continue leading and blessing in the life of **Nathan Siemens** (CSSI).

Friday, January 26 - Missions Fest Vancouver is being held today through Sunday. Pray that many good conversations will be held at the CSABC exhibit booth. The theme of the conference is "What is the Gospel?" Books and DVDs are displayed for sale at the bookstore. Pray that many creation resources will be purchased and that the Lord will use them to lead people to a greater trust in His word.

Saturday, January 27 - Although it may be hard to truly understand Germany's war era attitude toward Jews, we can see such extreme attitudes rising in our world again. Pray for the protection of Israel and 'His People' for the accomplishment of His Will and purposes.

Sunday, January 28 - Pray for **Jonathan Nicol** as he gives a creationist conference in Saint-Augustin, Québec, today. (CSAQ)

Monday, January 29 - Pray for strength and energy for **Calvin Smith** and the team as they work tirelessly to speak, plan, and give vision and direction to AiG-C. Pray for safe travel, and for conferences and meetings to come together easily and to produce much fruit.

Tuesday, January 30 - Pray for encouragement for pastors, leaders, and writers whose peers are following false doctrines and practices. Pray they may stand firm and be lights in this dark time.

Wednesday, January 31 - Pray for CMI-C's 3 full-time Event Planners that they would be able to continue arranging events in many churches that have not yet had a creation speaker.

Thank the Lord for His daily mercies and His long suffering patience toward us.
